EMERGENCY SLEEPING BAG IN POLYBAG EK-055

Utilizing reflective materials for insulation, it harnesses the body's radiant energy to sustain heat. Additionally, it prevents convective heat loss by shielding against wind. Crafted from Mylar, this sleeping bag features compactness and lightness, coupled with waterproof and windproof qualities, rendering it an ideal inclusion in any 72-hour survival kit. Generously sized at 38" x 76.5", it offers ample coverage, while its reflective and lightweight design enhances its utility.
